Professional Summary

Detail-oriented and results-driven Full Stack Java Developer with hands-on experience in designing, developing, and deploying scalable web applications. Skilled in Java, Spring Boot, React, SQL and integrating REST APIs for high-performance solutions. Strong problem-solving abilities and proven track record of delivering projects within deadlines.

Technical Skills

• **Languages & Frameworks**: Java, JavaScript, React, Spring Boot, Spring MVC, Hibernate

• **Databases & APIs**: SQL, MySQL, REST APIs, Microservices

• **Tools & Practices**: GIT, IntelliJ IDEA, VS Code, Eclipse, STS

• **Soft Skills:** Team Collaboration, Problem-Solving, Communication

Projects

• **Employee Management System**

  Developed full-stack system using React (frontend) and Spring Boot (backend). Implemented CRUD operations via REST APIs and integrated frontend-backend using asynchronous calls - [View Project](#)

• **Food Delivery Web Application**

  A responsive and user-friendly food delivery web application built using React. The app allows users to browse food items, add them to a cart, and place orders. Designed with a clean interface and modern UI components, the project simulates a real-world food ordering experience - [View Project](#)
